---

## EXPERIENCE

### Frontend Web Developer Intern

National Centre of Artificial Intelligence (NCAI), Islamabad

Feb 2025 – May 2025

- Developed responsive React/Bootstrap interfaces, optimized performance, and maintained clean, reusable code in Agile team.

### Full Stack Developer Part-Time (MERN Stack)

Care Cloud (MTBC), New Jersey

May 2025 – July 2025

- Developed and maintained responsive MERN stack features, integrating React frontends with Node.js/Express APIs and MongoDB databases for healthcare applications.

---

## PROJECTS

### Harfun-Mola – Full Stack Home Services Mobile Application - [LINK](#)

React Native | Expo | Node.js | MongoDB | Google Cloud | Stripe | REST APIs | Socket.IO | Gemini

Sep 2024 – May 2025

- Implemented secure registration, email verification, and editable user profiles.
- Integrated real-time booking with provider availability, GPS-based order tracking, and in-app chat.
- Built payment flows including Stripe, escrow system, and provider wallet with commission logic.
- Developed AI-powered features: AssistiveFix Navigator (smart issue diagnosis) and IntelliServe Insights (personalized recommendations).

### JobConnect Full Stack Project (Web Application) - [LINK](#)

React | Vite | ShadCN UI | Redux Toolkit | Framer Motion | Node.js | Express.js | MongoDB | REST APIs

July 2024 – Aug 2024

- Built a full-stack recruitment platform with job posting, profile management, and student applications, featuring a modern React/Vite frontend (ShadCN, Redux Toolkit, Framer Motion) and a secure Node.js/Express + MongoDB backend.
- Designed RESTful APIs with role-based authentication and optimized the user experience through responsive UI and smooth performance.

---

## EDUCATION

### COMSATS University, Islamabad

Bachelors in Software Engineering

2021 - 2025
